

Breastfeeding and the Brain:

PLACE BASED BRAIN BUILDING

Calgary • Thursday, September 27, 2012 OR Edmonton • Friday, September 28, 2012

Dr. Jean Clinton
Hamilton, Ontario

Dr. Jean Clinton is an Associate Clinical Professor, Department of Psychiatry and Behavioural Neurosciences at McMaster, division of Child Psychiatry. She has authored papers on early child development and poverty, infant neglect, children's mental health, resilience, and on adolescent brain development.

Dr. Robbin Gibb
Lethbridge, Alberta

Dr. Robbin Gibb is an Assistant Professor at the University of Lethbridge in the Department of Neuroscience. Her research focuses on parental influences on brain development and recovery from early brain injury. Aside from teaching commitments and research, Dr. Gibb gives talks to public interest groups of all types on the role of early experience in shaping brain development.
